DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Allowable Subject Matter

2. Claims 1, 3, 6, and 8-17 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:
With regard to claim 1, the prior art references do not teach the specifically claimed thermoplastic resins in the coating. With regard to claim 17, the prior art references do not teach a coating on a refractory aggregate that consists of an inner coating of thermosetting resin and outer coating of specific thermoplastic resins.

Election/Restrictions

4. Newly submitted claims 18-24 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the new claims are directed to a method while the originally filed claims are directed to a product. In addition, the newly submitted claims are not limited to a method of making resin-coated sand but rather a method of making resin-coated refractory material.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 18-24 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

5. This application is in condition for allowance except for the presence of claims 18-24 directed to a non-elected invention as set forth above. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.
